Dear Name:

At the end of 20xx, there were 96 children in _____ who acquired HIV/AIDS from pediatric hemophilia or from their mothers during pregnancy, delivery or through breast-feeding. Additionally, there are 412 children in our communities who will lose one or both parents to AIDS. While in some cases these children are adopted or live with other family members, most will become orphaned and live impoverished lives.

If you're like us, you are truly concerned that this disease touches the most vulnerable members of our community – and you want to do something to help. For this reason, we have created the **Children's Resource Group** to support the work of The _____ Center,_'s largest provider of services to persons impacted by HIV/AIDS.

This group will assemble forward-thinking women to help and protect children from the social, emotional and physiological effects of HIV/AIDS while demonstrating leadership in the renewed fight against this community health crisis.

We believe you are a compassionate woman who can contribute your time, expertise and financial resources to help children. Please join us at our kickoff luncheon on:

Tuesday, August 31, 20xx
11:45 a.m. to 1:00 p.m.
_____ Country Club
Club Address

If you can attend, please RSVP to _____ by calling (xxx) xxx-xxxx or e-mail him/her at email address by August 28. If you have a friend who is interested in children's health, please invite her to attend as well.

There are two things that stand in the way of the suffering brought on by HIV/AIDS: the Children's Resource Group and people like us. We hope you can make every effort to join us for this important afternoon. These 508 children need and deserve our help.

Most sincerely,

Co-Chair, Children's Resource Group
